Subject: RE: Status of Juneau Co Data

I have not received confirmation that all data is Final. We are working with the labs to get the data finalized and updated to an internal website by June 29th. We will share the information with Wisconsin DNR the week of July 2nd to review. We plan to make the website public by July 9th, at that time we will make the website address known to the FOIA Requester.

Cheryl Burdett

> Cheryl -- For question #3, when will WD have all of the data? Will your report include all of the data analysis? I'd like to have an internal meeting with the group on this email (and anyone else you think appropriate) to discuss next steps including releasing data to WDNR and putting info on our website, analysis of the data and discussing enforcement options once data have been analyzed, and timeframes for briefing up the chain and discussing any possible enforcement actions (federal or state) with HQ, and WDNR.

> Response: I, Cheryl Burdett, have sent the data to three of the five homeowners and left messages a couple of times with the other two homeowners. One of the two, who I have not sent the data to tried to contact me, but I was unable to reach him when I called back. The other person has not made any attempts to get in touch with me.
